

# USG CEILINGS PLUS - DESIGN SOLUTIONS - COLORTEX™ BARZ® + BRILLIANCE® - 2330

## NOTE:

1. This Revit asset is provided "As is" and is for geometric information only.
2. USG recommends that the Architect utilize a lighting design professional in evaluating the .ies files provided as a separate download from the Revit files.
3. The lighting information in these assets are for visual use only. Only the .ies files may be used for accurate lighting computation.

## GENERAL NOTES:

- These Revit generic model families are digital representations of the USG Ceilings Plus® Design Solutions - COLORTEX™ BARZ®.
- Provided Revit families and material images are representational only. There may be slight dimensional differences from actual manufactured product.
- Typical installation details in both Revit and AutoCAD formats are available on USG.com at <https://www.usg.com>
- Please reference USG literature (located on USG.com) for additional information regarding acoustical performance and perforation options.
- These Revit families are "Face Based Generic" They are to be attached to a Reference Plane, typical.
- These Revit objects are digital representations of the USG Ceilings Plus® Colortex Barz®+Brilliance Design Solutions modules.

## INSTRUCTIONS FOR USE:

1. Select desired ceiling tiles from this Revit File.
2. Use the **copy** command and **paste** it into your current project.
3. Under the **Manage tab** select the materials command and Re-path the image files included in the download to your Revit images folder.
4. Apply finishes via the properties menu.
